

Financial Recovery Review

A PHYSICIAN-LED RESPONSE TO THE FINANCIAL CHALLENGES OF COVID-19

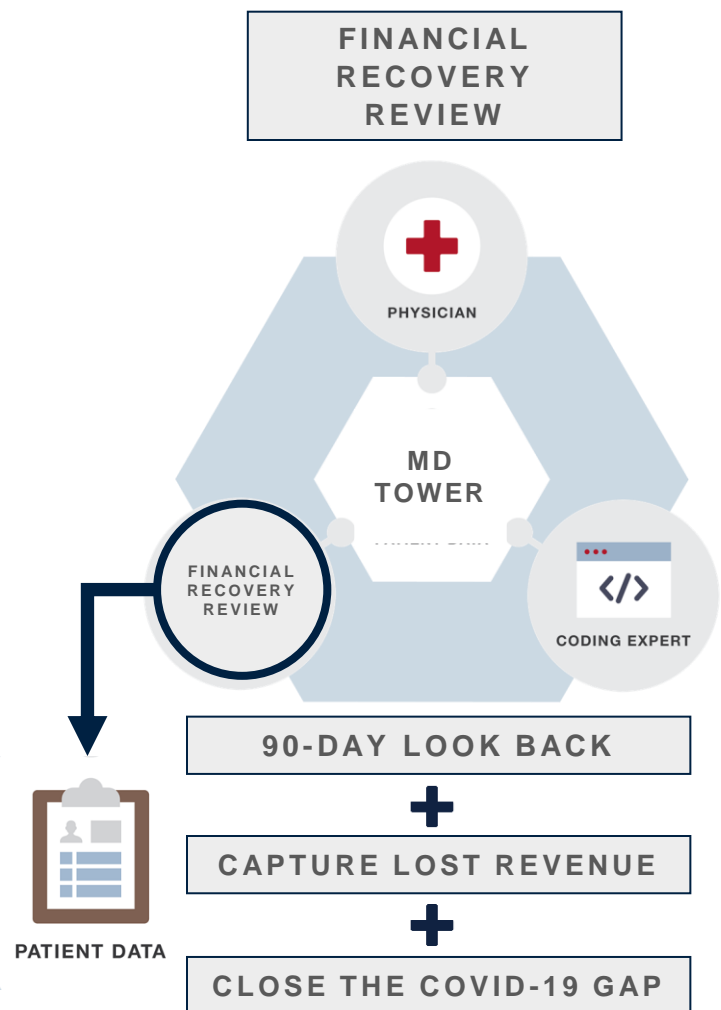

Given the stoppage of elective surgeries, increased expenses and the pressure that will be placed on the financials of hospitals during this crisis, Accuity has created a targeted program to help hospitals ensure the accuracy of their medical records, and therefore the appropriate reimbursement for services rendered.

Financial Stress Relief Solution:

Accuity Delivery Systems helps hospitals capture accurate, complete and compliant clinical documentation of inpatient visits. We have adapted our programs to offer a solution to assist during these challenging times, by providing a retrospective 90-day physician-led review of your billed medical records. This Financial Recovery Review will help ensure you are paid appropriately while you work in this financially difficult period.

This unique approach allows us to:

- Capture the true clinical picture of your inpatient population on those medical records billed
- Recover lost revenue
- No financial risk for your organization
- Quick and easy go-live

Trust a Proven Process

Accuity has delivered consistent and outstanding results at both academic and community-based hospitals. With our proven track record, we welcome the opportunity to help you during the COVID-19 crisis.
